Assignment: 1.5

```
FUNC solution(Int N, Array A):
    listN = List: N, 0
    maxi = 0
    FOR a IN A:
        IF a > N:
            listN = List: N, maxi
        ELSE:
            listN[a-1] += 1
            maxi = MAX: listA[a-1], maxi
    RETURN listA
```
